

To Whom It May Concern,

I consider the opportunities for recreation at public properties in Connecticut, especially those of the MDC, to be one of the most important reasons to live here. I have spent many, many pleasurable days walking, running, hiking, and bird watching at various MDC reservoirs. As has my wife. It's restorative to the body and the soul.

I strongly support SB 43, SB 90, and HB 5254.

Thank you.

Sincerely,
