

Good Morning – I am David Goldenberg M.D., a member of the Connecticut Medical Examining Board. I have been on the Board for 9 years. I have only one comment about the proposed Bill No. 6374. This is regard to section (h). The current wording states “The Governor shall appoint a chairperson from among the board members”. I believe this should be changed...*the chairperson of the board should be a physician*. It is impossible for a non-physician to understand the structure of the current health care system, and a non-physician has no clinical knowledge to be able to correctly assess complaints. Thank you for your consideration. (signed)...David M. Goldenberg M.D.
