Testimony in support of HB6481, An Act Concerning the Establishment of a Lupus Education and Awareness Plan

Senator Stillman, Representative Ritter and members of the Public Health Committee.

I am submitting the following written testimony in support of House Bill #6481.

- I am the Uncle of a Lupus Patient and I believe more Lupus Education must be done.
- I support the proposed CT Lupus Bill as being an important Educational Tool
- With more education families may be able to better identify and treat this condition.
- Lupus is a scary and potentially fatal disease that takes a toll on many people.

Thank you again for introducing this important legislation.

I believe it will have a positive impact on the lives of patients living with lupus in Connecticut.

Sincerely,
Sean Mulligan
