

To whom it may concern,

Please, please respect the rights of Club members to smoke if they wish. Membership and attendance is NOT mandatory in ANY club I know of. Anyone who wishes not to be exposed has the right to stay away. In the past 20 years I've seen my rights and privileges suffer innumerable losses. Although I always wear a seat belt, I don't feel I should be told to do so unless it has the possibility of harming others by not doing so. What's next, will you mandate helmets be worn in the shower?? Please respect, and uphold the few rights we have left as Connecticut citizens.

Thank you for your consideration.

Regards,

Mike O'Neill
