

To Whom it may concern,

[Senate Bill No. 1048 , AN ACT CONCERNING](#)

[DENTAL AND HEALTH REFORM](#) provides a

vital step in promoting dental health parity in line

with other health services coverage. Oral health

and vision are just as important to a person as

medical coverage. They are all interconnected

and affect good health, thus, they should be

covered until age 26.

Sincerely,

Robert Mongillo
