Subject: Support for Bill #6201

To Whom It May Concern:

Please be advised that I and the Connecticut Driver Safety Education Association fully support passage of HB#6201. We do so in order to promote safety in driver training and licensing exams. Too often, license applicants attempt license exams ill prepared and either fail and/or crash either while training or testing. In addition, many who pass are not adequately prepared for the safe world of driving further threatening the safety of the general public.

In recognition, our neighboring states have started to mandate professional road lessons for all license applicants.

Driving is a privilege and demands responsible decision making as well as responsible actions. We support responsible driving and believe that bill #6201 is a start in that direction.

Gary Knepler, President
Connecticut Driver Safety Education Association
