

Greetings Legislators,

RE: IN SUPPORT of S.B. 720, AN ACT CREATING PENALTIES FOR CAUSING HARM TO, OR THE DEATH OF, A VULNERABLE USER OF A PUBLIC WAY.

My name is Maurice D. Robertson; I reside at 69 Myrtle St C2, Hartford, CT 06105.

It has come to my attention, that CT doesn't have a Vulnerable Users Law in place, which I find incredulous, in light of my observations of the growing lack of consideration for traffic laws, for example, full stops at intersections, abuse of right turn on red, blocking intersections after the lights have changed and of course the whole cluelessness of drivers and how to deal with bicyclists. I could go on, but at least let's legislate that road raged and or distracted drivers earn their way back to the privilege of driving, whatever their ages. Please consider making it mandatory, that driver education is applied across the board after they serve the punishment for their traffic violations.

Respectfully Yours,

Maurice D. Robertson
