

Jon Oddo: CT Administrator  
8 Sachem Road  
Seymour, CT 06483

I am a special educator as well as administrator for a Private Special Education Facility. I have been in the field of educating students with disabilities for over 10 years and have received extensive hands on training and ongoing education to make sure our students receive the services they need. While my training did not prepare me to directly deliver ABA Services to children, it my support of the properly certified Behavior Analysts at our school that helps our children become active and successful members of their school, community and home. To be an effective program for children on the spectrum, as an administrator I have learned that it is critical to have the special training and expertise of a BCBA. It is important to recognize that the Special Education teachers, Speech and Language Pathologists and other service implementers that work for me are not interchangeable with BCBA's nor can they effectively do the job of a behavior analyst without the proper training.

Thank you for your time, Sincerely, Jon

Jon Oddo  
Principal/Education Director
