"Testimony in Opposition to SB 1105"

Hi Chris, we could save a ton of money in CT, by supporting effective ABA training for special needs children-

Just give us parents a tax break so we can help our own children. ABA is critical in supporting Autistic Children, it creates jobs and efficiency as well as support mainstream students.

ABA is our "sports team" when it comes to autism, parents of autistic children are working every moment, 24/7. It's tough, it breaks us and we love our children.

Thank you for your support of ABA, Applied Behavior Analysis.

with love and support,

Terry Torok, father of Justice

CT Resident.
