Testimony in Support of: SB 634

### **FARM METHANE PROJECTS**

Submitted by: Donald Tuller, President, Connecticut Farm Bureau Association

*The following testimony is submitted on behalf of the Connecticut Farm Bureau, a statewide nonprofit membership organization of over 5,000 families dedicated to farming and the future of Connecticut agriculture.*

Senator John Fonfara, Representative Vickie Orsini Nardello, Members of the Energy and Technology Committee:

I would like to offer our support to SB 634 FARM METHANE PROJECTS. Agriculture is one of the few bright spots in Connecticut's current economic landscape. The potential for farm based energy generation is an opportunity that should be explored and encouraged. The passage of SB 634 would be a positive step in the right direction, and I ask for your vote to make that happen.

Thank you for your consideration of this issue. Don Tuller Connecticut Farm Bureau Association
