

I strongly support the Reform of the Liability Laws for municipalities and non-profits such as MDC.

The decision to award a mountain biker close to 3 million dollars and absolve her of her own personal responsibility was flawed.

As an avid mountain biker, I have ridden in many areas throughout CT and New England and would greatly miss the access that is currently available. The mountain biking community is a diverse group of all ages with many skill levels but we all share a deep appreciation for the outdoors and the challenge it presents for both our minds and bodies. We are the eyes and ears in the forest and can serve to inform the powers that be of abuses within their borders.

Please expand and include specifically bicycling and mountain biking to the list of recreational activities that are covered on our public and semi-public lands. We can all work together to hold both public, semi-public and private lands harmless against acts of our own negligence.

Sincerely

Holly Hambleton
