

Dear Ms. Blancato,

I respectfully request you advise the General Assembly's Planning and Development Committee that I support the concept behind the three Recreational Liability bills on their Agenda (SB 43, SB 90 and HB 5254). As a towns person with a long standing interest in the preservation of open space the concern over increased liability for town owned property seems to curtail any discussion of open space acquisition. Thanks again for sharing my sentiments with the members of the committee.

Very respectfully,
Joseph P. Lewerk
