

RE: HB 5287, AAC Licensure of Facilities That Provide
Temporary Care To Children With Minor Illnesses

I am writing to give you my support of Dr. Matteo
LoPreiato's idea of the sick urgent care center that he
developed. I fully support the House Bill 5287 that Dr.
LoPreiato has a part of, for the urgent care center.

I can definitely give you my 100% support for his plan of
the "medical Home" that he has developed.
Thank you for your time and attention to this matter.

Sincerely,
Lisa Toussaint
