Statement of the Connecticut Naturopathic Medical Association

HB 6305—AAC Implementation of the SustiNet Plan

Members of the committees:

My name is Stacey Munro. I am a Naturopathic Physician and practice in Connecticut. I also serve as chair of the legislative committee for the Connecticut Naturopathic Physicians Association (CNPA).

CNPA strongly supports HB 6305, **An Act Concerning Implementation of the SustiNet Plan.**

We believe that SustiNet's goal of increasing the number of citizens who have health insurance is a good one. Naturopathic Physicians play a key role in helping our patients stay healthy. We would like the opportunity to serve patients who enroll in a SustiNet health plan.

The exchange that will begin in 2014 will give consumers a multitude of choices on health plans. We urge you to ensure that Naturopathy is covered under the plan.

Thank you again for all of your hard work on this important issue. I know that the SustiNet Plan has been developed after two years of study by the Board of Directors. We have followed the activities closely and look forward to working with you in the future on this initiative.

In closing, CNPA strongly supports the SustiNet Plan. We hope our profession will be included in it and that we can treat those who are enrolled in the plan. Thank you.
