

Dear Appropriations Committee,

Please be sure to approve the expansion of SLE service to/from New London on weekends if you care about the flourishing of the economy of the New London/Mystic/Stonington/North Stonington/Norwich economy.

Please help improve our productivity and our job opportunities, the quality of our lives and our housing market. Please help prevent the congestion on the highway from deterring weekend-home buyers from New York and commuters from New Haven etc from coming to our area. Please save us from wasting gas and precious time idling in traffic jams to and from Old Saybrook.

Please do take this seriously and vote for New London weekend service now.

Thank you for your consideration,

Dee, Nelson and Arabella Aldrich
