

The DCF

to whom this may concern my name is sheena woodall supportive housing family program has helped me tremendously within the last 2 and a half years. throughout all of my downfalls and accomplishments I have always seeked and was giving nonstop support from the workers, in the programs that were giving from the supportive housing for family... I gained confidence as a person and as a mother.. I was encouraged to never give up... this program helped me maintain a household for my family provided me with a security deposit and furniture for my first apartment it was my first time experencing living alone with 1 child and delivering with a second the next week. this program also help me locate a job help me with resumes cover letters going to job fairs food resource is advice confidence and so much more this is a very experienced and hands on program. The workers that I work with are all great when I was entered into those programs I was scared that I was going to be controlled you told what to do. i soon then opened up to see that this company have a lot in store for me with funding and benefits and something to make me become a better person and a better mother which I am today when I was entered in this program I was pregnant I was not working I was not going to school I had no help I had no support I had no guidance or any knowledge 4 the help that was waiting for me I was 19 years old and single mother with 1 child in a nother on the way . I still am a single mother in school graduating june I work I plan ahead of time I multitask and I have so much more confidence and strength and courage and believe in myself so even though I have not yet really found myself I want to thank the supportive housing for family for helping me and given me a start and a new path for my upcoming quest to success... thank you stacie rochelle and andrea.....
