

Good Morning,

I would like to thank the Appropriation Committee for all the work that you do to help to keep the non-profit safety net in tack. As a parent with two adults with developmental disabilities who receive services through the Arc of Meriden-Wallingford, Inc. it is so unsettling to hear about budget cuts. I know that it must be difficult to always need to look to see where you can make cuts that will not cause harm to anyone receiving much needed services. Please help to keep the safety net in place for individuals with developmental disabilities. I depend on you to make the right decisions.

Thank you. Pauline, Mother and Guardian
