

Dear Senators and State Representatives,

My name is Dr. Jack Zamary and I am the Principal at Middlebury Elementary School. I am writing in support of the portion of Bill No. 5354 - AN ACT CONCERNING ATHLETIC DIRECTORS. Since this concerns the health and safety of students, and there are National Certification Programs that certify Athletic Directors I would like to urge you to upgrade the qualifications of the Athletic Directors position in Connecticut. In addition, I work in a district with an Athletic Director who also serves as supervisor for our health and physical education teachers. His leadership is invaluable in shaping essential instruction and services for our students.

Sincerely,
Jack Zamary, Ed.D.
Principal
