

Environment Committee: HB 5116 A labeling bill--Environmental Committee public hearing on Wednesday, march 7, 2012

I am in favor of this HB 5116

Regardless of any financial burden as quoted that the manufacturer says it will cost them, is that it will only require one line of four little words. " This packaging contains BPA." Or better yet this packing says:"This packaging does not contain BPA." How will those 4 little words cost them an arm and a leg? I am sure that an alternative from using packaging without BPA is already in production in Europe and the cost is negligible.

As a customer, we have every right to know and if it doesn't contain those 4 little words we just won't buy it.

Thank you for your kind attention.

Signed,
Ann Berman
