I am writing in support of House Bill 5116 :

AN ACT REQUIRING THE LABELING OF FOOD PACKAGING THAT
CONTAINS BISPHENOL – A

It would be a great advantage for consumers to know if a product they purchase contains Bisphenol - A. There are many scientific reports that show strong evidence to a link of carcinogenic activity when one is exposed to this toxic chemical.

As a consumer I know how important the labels are as a guide in making a healthy choice. The requirement of food packaging to indicate when a product contains Bisphenol –A would be invaluable to the consumer who chooses to avoid such toxic chemicals.

Sincerely,
Caryn Rickel
