9. 34 George St. Seymour	8 yr planting fully invading all 3 adjacent properties.	Received rhizomes from person in Bethany.	Growing in power lines, and invading. Owner will try to abate this year.
10. George St. Seymour	8 yr planting	Rhizomes received from above person..	Destroyed swimming pool, and owner abated all bamboo.
11. George St. Seymour	8 yr planting	Same as above, Invaded under Fence.	Owner will start to try to abate this spring.
12. Highland Ave. Ansonia	10 yr plus planting Entire street fighting it-planter has moved.	Many houses invaded, everyone is cutting, one elderly woman cannot do it.	Running down embankment into woodlands area .
13. Greenwich – per town hall committee member –invading Railroad tracks .	This is an old infestation invading Greenwich to Westchester rail road tracks. Large area.	They do not mow here, and are asking for help in trying to eradicate it.	Planted yrs ago and out of control.
14. Stamford	An attorney advised that a person who was containing it, moved, & the new owner did not understand it. Large invasion.	Entire neighborhood being invaded now.	Invasion is spreading to all adjacent properties.
15. Southbury -	A person on Valley Independent Sentinel –online says his father is loaded with it.	He uses snowplow to mow it. Rhizomes got caught in undercarriage.	He infected his son’s property in Beacon Falls, with this snowplow.
16. Waverly Ave. Shelton	My husband was on a paint job, and the neighbor had planted it near woods.	It is invading all properties adjacent. No one knew what it was, until my husband told them about our ordeal.	Invading unmanaged land.
17. Seymour	Went to local	He did not know	Has pulled it all out

17. Seymour	attorney about my ordeal, and he had newly planted Phyllostachys.	what it was. Knew it was spreading.	after I explained Phyllostachys to him.
18. Armstrong Rd. Shelton	Huge stand of Phyllostachys. He is not near any other property owners.	He has told me it will affect drainage if he lets it get as far as his foundation.	Do not know where He disposes of rhizomes.
19. Woodbury	Per Peter Picone, large grove of it that he and Les , went out to see some years ago.	They were amazed.	Advanced Infestation.
20. New London	I called a claim adjuster I knew to ask if homeowners insurance would ever pay to backhoe it out.	Coincidentally, her property is being invaded by a 40 yr old stand of it.	Lots are large, but finally made it to hers.
21. Seymour	Was told by a town council member, they are trying to kill some Phyllostachys on railroad track.	They are not sure if they have eradicated it yet.	Invading Seymour Railroad track.
22. Moss Ave, Seymour	Was told by a town Council member They are trying to kill some Phyllostachys here.	Not sure of exact location.	Tried to find on a drive by.
23. 813 South Main St. Seymour	6 yr old stand invading right up against the forest area- size approx 20 wide/15 high	Owner received rhizomes from a friend,had no idea it was invasive.	Says it is really spreading fast, before they mow. Invading forest area in background.
24. 38 Manners Ave. Seymour	Approx 8 years old grove-fully invading next door neighbor -5 feet from his house and foundation . Size is 26 wide	Fully invading neighbor next door Growing into woods in back down hill. Planter will try cinder blocks this year to try to contain	Invading woodlands all behind these 2 properties as well. Planter says he directs rhizomes towards woods.

	and 20 high.	it. Told him This will not work. Neighbor next door does not know what this is ,& speaks little English.	Invading 36 Manners Ave. Seymour next door. Very small lots.
25. 433 Center Rd. Easton	Huge infestation 35 high, and approx 45 wide. Approx 20 yr old planting.	Fully invading woodlands .	Spreading out all into the adjacent Easton woodland area.
26. Merritt Parkway CT-15 South Exit 47 Southbound Easton	100 feet of 35 Feet high Phyllostachys on Merrit Parkway!	Pulled off exit and this is originating from Stevenson street. A woman whispered to me that her ex- husband had planted it 15 years ago to block the highway. She knows it is invasive, as DOT workers have mowed it, and it comes back up fast.	Fully invading entire street. Three houses invaded. None know what it is. Fully invading State land and Running up along Merritt Parkway. DOT not able to kill it, and know it is invasive bamboo. Huge infestation.
27. Rte.58 Easton	Infestation all through a property across from the reservoir and forest area of Easton. Approx 30 to 40 ft wide, on side of road, on old home lot.	Full infestation running through this property.	Directly across from huge reservoir and woodland area.
28. 467 Birchbank Rd. Shelton	Huge grove of Phyllostachys Planted right on edge of Housatonic river. Large size approx 40 high and 50 wide. Only about 10 yrs old.	Neighbor says they do not like it, as they know it is invasive. Planter has put in a piece of wood to slow it down.	Rhizomes appear to like the constant moisture from the river edge, as this grove is large.
29.	Huge infestation	Owner had no idea it	89 yr old widow

951 Howe Ave. Shelton	invading fully. Owner planted this approx 7 yrs ago, brought rhizomes from previous property. Purchased online. 35 h x 65 w	was invasive , even though it has fully invaded around a large maple tree, & up to house foundation, and through the lot.	lives next door and is concerned, as it is quickly approaching her property. This is all adjacent to woodlands.
30. 96 Main St. Newtown	Large older home for sale. Huge Phyllostachys infestation all invading surrounding woodlands. 30 h x 75 w approx.	Called real estate agent who did not know of running bamboo...did not seem to care..will not disclose it.	Suspect rhizomes run quite far on this property. Appeared to be invading around some large maple tree's as well.
31. 38 Sugar St. Newtown	Phyllostachys everywhere, rows of it hanging out onto main road, and all throughout woodlands in back. Most 20 h x 20 w .	Owner has no idea it is invasive. Is allowing it to spread all through wooded area's.	Says next door neighbor sells it. Honor system.. Like eggs...put money in box, and take plant. Digs and puts out by road all summer.
32. 57 West St. Newtown	Phyllostachys invading everywhere, Same as above. All invading woodlands.	Digs rhizomes all summer, and pots it, and puts these for sale on the road in front.	Money box placed here, to buy plants. It's the honor sytem.
33. 3 Boggs Hill Rd.,Newtown  This is worth driving out to view. Unreal.  Town has advised since not on invasive list cannot order plant removal.	Huge infestation. Too late here. Massive invasion into adjacent forest and creek area. 30 h x 100 ft .all in woods and along creek.	Owner says 20 yrs ago (1989) her nephew brought a single plant that he bought on the side of the road as a house warming gift.	This is a huge invasion. Ran downhill from the foundation into woodlands. Owner uses machetti to cut rhizomes away from foundation each spring.
34. New Fairfield	Above owner's son had moved and	Owner above reported to me . it is	Will drive out to photo this soon.

	brought a rhizome to his new home	now invading down a mountain there, lots of it.	This is an extensive invasion here. Son has moved again and decided to not bring rhizome this time !
35. 567 Rte 34 W Oxford	Phyllostachys grove in woodlands bordering on Housatonic river . 18H X 15 W	This will invade all the woodlands here.	Invading Housatonic River front property.
36. RTE 34W, Oxford	Saw another Phyllostachys grove Smaller 15H x 10 W	Along riverfront property	Housatonic Riverfront property
37. 46 Taunton Hill Newtown	Huge infestation Approx 100Wx35H	Very dense invading forest and appears to be a marshland in back. Impressive size. Found owner who planted a single rhizome in 1992 he was amazed himself. Owner has shared rhizome with others on this street.	This is sold to be a huge horse farm So lots of construction here. New owner may not know what this is. Planter says ½ was cut, rhizomes all through lawn .
38. 102 Taunton Hill Newtown	Large grove in forest area, adjacent to residence.. This is invading along a very long creek here.	Size is approx. 30H X 45 W very dense .	Spreading into Wetland and woodland area.
39. 22 High Rock Newtown	Approx 35 H x50 W And invading extensively.	This property abuts woodland area and huge wetland area w/pond.	Phyllostachys is seen here invading far into woodlands already.
40. Taunton Hill Newtown	Another smaller siting approx 25H x 12W	Assuming from shared rhizome. This street is surrounded by woodlands and wetlands.	Three sightings on this street.
41. 4 Pine St.	Rhizomes all	Owner bought house	Thick infestation

Newtown	through property. Side, back, up hill, Near foundation, and over septic. 25 H , & all through Planted approx 11 years ago.  200 yr old home.	with bamboo Had no clue, was Cutting 50 plus culms in June, pointed out area's she could no longer plant anything. Rhizomes up to brick stair case.	Directly over septic, and all in phone lines, which owner said bamboo knocks out in storms. She is moving and now wants to sell faster.
42. 1480 River Rd. Southbury	80 W X 20 H Huge border invading around maple trees.	Next door is a huge corn field..this will soon become a bamboo forest.  The remaining Yellow groove bamboo is invading. Owner plans to try to eradicate it.  Shared rhizome: Painters Hill Rd. Roxbury.approx 7 years ago – person regretted it.	Across the street from large reservoir, and river. Tracked down new owner, and he reported that entire property was invaded, and it was very hard to remove, and it is coming back now. He did share rhizome with a person in Roxbury, who reported to live to regret the planting. Will track that later.
43. 485 Rte 34 Oxford	20 W X 20 H	Newer planting in front of run down cabin .	Waterfront property on Housatonic river
44. 22 West Purchase Rd, Southbury	12 W X 20 H	Newer planting invading	Near woodlands
45. 42 West Purchase Rd, Southbury	15 W X 20 H	Newer planting invading	Near woodlands
46. 1183 Purchase Rd. Southbury	8 W X 20 H	Newer planting invading	Near woodlands

47. 98 RTE 34 Newtown	20 W X 20 H	Newer planting invading	Near woodlands
48. 64 White Oak Shade Rd. New Canaan  This can be viewed From Kiwanis Park on the right hand side by water. Size of a football field – address is Old Norwalk Rd. & Holly Rd., New Canaan	Huge Infestation 110 W X 32 H separated by water abutting 64 White Oak Shade Rd.  situated on the river edge in Kiwanis park. Hanging into water Has not crossed yet to 64 White Oak .	Planted by girl scouts in back of their cabin approx 8 years ago, and now fully invading : Five Mile River bank-Kiwanis park	In 2008 flood evaluation report the firm:Milone & Macbroom stated extremely detrimental non-native invasive suggested removal.  Report is available Online. *
49. 7 Old Mansion Rd. Southbury	30 W X 15 H	Newer planting invading	Invading on property line
50. G.Bennett Park Southbury Conservation Area Roxbury Rd. Rte 67 Southbury	Natural infestation traveled by water  60 W X 25 H	Invading on edge of the water Pomeraug River High current and erosion here - loose rhizomes seen.	Sandy, and washed conditions where bamboo traveled most likely from Bear Hill Rd. along Pomeraug River.
51. 11 Bear Hill Rd. Woodbury	The largest infestation- approx. 2 acres + growing wild all through marsh of Pomeraug River.	Owner planted 2 small plants in 1965 at edge of his property. Largest sighting so far.	Pomeraug River invasion .
52. 30 Old Grassy Hill Rd., Woodbury	Huge invasion here all invading deep into forest and on creek edge . ½ acre approx  Reported by	Appeared to have been planted at edge of this property and invaded. Situated across from wetland . Pomeraug river.	Bamboo hanging on eroded bank of creek, Pomeraug river Strong current here to wash it.

	Chris Samorajczyk DOT, who attended 3-30-2011 IPC meeting Windsor.	Owner told me it was there when she moved in some 7 years ago and has spread badly.	
53. 16 Good Hill Rd. Woodbury	20 W X 20 H invading from the neighbor next door	Invading 30 feet from an in ground pool.	Left an information pack, & neighbor says he will remove the rhizomes, did not know what this was.
54. Pomeraug Rd. Woodbury	40 W X 30 H invading freely but so far only on owners land	3 separate plantings all in wetland area and invading.	
55. Route 110 Stratford	45 W X 15 H invading on property line	Located on corner when coming off Merrit Pkwy-newer planting.	Near Booth Memorial Park.
56. 121 North Compo Westport	50 W X 25 H invading.	wetland –planted on edge creek.	
57. Richmond Ave Westport	100 W X 25 H	invading 2 side lots	
58. 118 Wilton Rd Westport	50 W X 30 H	invading on marsh	
59. 3 Richmondville Ave, Westport	60 W X 30 H	invading on property line.	
60. 21 Weeping Willow Lane, Fairfield	40 W X 20 H	invading on property line	
61. Merritt Parkway	Southbound EXITS 38-46	7 separate sightings large infestations	Invading along Merrit Parkway
62. I-95 Northbound East Lyme	Between the Old Lyme & Rocky Neck Beach exit		Invading adjacent woods
63. 311 Main St	15 W X 20 H		

Westport			
64. 119 Feldspar Rd Beacon Falls	60 W X 30 H  large infestation invading adjacent property owners.	Father of our towns House rep for the environmental committee advised that his neighborhood had an invasion.	Said already encroaching onto neighbors land, & is approx 15 feet from a foundation. Did not know what it was.
65. Robinson Lane Southbury	50 W X 20 H  and additional groves smaller	Invading in various groves on the property , growing around a large run down trailer	A makeshift potting and selling operation, as plants dug and potted.
66. 10 Robinson Lane Southbury	20 W X 20 H		2 others had this on the street, possibly from above originator.
67. 61 Robinson Lane Southbury	Newly planted		Same as above.
68. 965 Orange Center Rd, Orange	20 W X 25 H  planted 7 years ago. Update: Planter did not keep up with cut/starve/cut So neighbor being invaded next door is pouring gasoline and kerosene on it to kill it, near power lines.	Invading neighbors adjacent property. Did not know what it was. Had 2 other groves in the back.	Owner knew it was invading, said it was almost up to his foundation, and asked how to abate it. Will start and remove from next door neighbor as well.
69. Morningside Rd. Milford	Large infestation	Owner above reported this sighting.	Says there is a huge amount here.
70. Orange Center Rd.	Cluster of large infestations invading	Appear to be older infestations	One very large infestation did back

Orange	4 addresses up and down street, last house invaded is no.593, had no clue is worried, as it is invading driveway and 20 ft from septic.	maybe shared rhizomes, one owner said she had no clue what it was.	up near wetlands on next street.
71. Town of Westville, near New Haven	Was advised by the owner of Enchanted Gardens in Orange, who is under invasion now.	That the town of Westville, is calling for help on this. Have some bad ones.	Will try to see where it is.
72. Morris St. Waterbury	Was advised by John Thorn that 10 years ago he introduced and regretted	Shared rhizomes, so many have it now.	Will go out to see this and update.
73. Laurel St. East Haven	When I called my insurance carrier to find out not covered the claim manager reported this one.	He did not want his name mentioned, but said he felt sorry for me, he knows the plant.	Says this is a huge infestation. Will see it, and update.
74. Painters Hill Rd Roxbury	Report of no. 42 sharing rhizome, as person pulled off road for it.	Was told she grew to regret it later as it invaded all her gardens.	
75. Woodlake Condos, Woodbury	While doing a turn Spotted a new planting	Was invading forest in back of condo, new planting smaller.	
76. Spoke Rise Ridge Newtown	Reported by librarian in town		Will go to see and update.
77. Swamp Rd. Newtown  Near 15 Swamp Rd across street in forest, and wetland.	Approx 80 x 20 80 linear, 20 deep invading open forest.	In a wetland swampy area. In dry year this will Fully engulf this Forest. Have photos. Appears natural.	Reported by Rob Sibley Newtown Conservation Commission.
78. Curtis House	Hard to see in summer, due to	Took long walk on other side of hill,	Fred, the owner says he had no clue.

<p>506 Main St. South Woodbury, CT</p> <p>Conns oldest Inn has been bamboozled.</p> <p>Bamboo has migrated from a planting that originated next door at : St .Teresa Avila 494 Main St.South Woodbury</p> <p>Set way up in back on the hill and is invading down the hill to other side.</p>	<p>trees. I spotted this in April 2011, easier to see. This is way in back up on the hill, and I saw new culms 30 feet invading down hill to the propane tank and then some 25 feet or less to the foundation .</p>	<p>with Kathleen Nelson along Pomeraug River and the bamboo here is coming down the hill in a full invasion of unmanaged land to the river. There is a lot of bamboo .Can see this using park access and walking in. Its far gone.</p>	<p>When he was younger the neighbor had an oriental garden and planted it in 1980's This is now church property. He took notes and is concerned, may try to backhoe it. although it has jumped up and over the steep hill way into the woods. My opinion – too late now for forest in back which meets up to Pomeraug River.</p>
<p>79. 18 Sheasby Rd Ansonia</p>	<p>The owners neighbor had seen my number in the newspaper article in Valley Gazette. I was called for help. This was a large infestation approx.30 high x 30 wide, with rhizomes visible far into all adjacent area's and near foundation and electrical box. Invading down the hill to the well. Invading drain of natural spring on property.</p>	<p>Was told it had punctured the owners pool liner next door. The bamboo owner did not speak English. We used his daughter as an interpreter, and passed out information The neighbor the next month cut all canes. Rhizome remains, will not stop it.</p>	<p>The owner has been invaded right up to her driveway. She is quite concerned, as cutting canes will not stop it. She has brain cancer and is a widow and expressed to me she cannot deal with this. Update: House with bamboo up for sale, not disclosing, removed part of bamboo , rhizomes to dump –next owner will still have it. Owner invaded very upset, full invasion under her driveway now.</p>

<p>80. 78 Bruce Park Greenwich</p>	<p>Linda Morano a senior has suffered a personal injury from falling on a bamboo stump as well as a full invasion of her property. She has for years been seeking help. Her neighbor, like mine, to this day allows it to freely invade.</p>	<p>Travelers paid out a large property damage claim for backhoe removal, and the bamboo has come right back again. It appears a few houses have it in viewing aerial photos.</p>	<p>In my opinion this is stigmatized property, and must be disclosed to the next buyer. She is still trying to get help, and this month has written to her legislator. I will help her. The photos show how far gone this is .</p>
<p>81. Nonnewaug High School 5 Minor Town Rd. Woodbury</p>	<p>In the back left side of the property . huge infestation fully invading deep into forest and under the canopy of trees. Great site for walking and observing specie. This is just about how bad it gets. Reported by : Todd Mervosh Conn Agricultural Experiment Station</p>	<p>Have been out to this site twice, and this one is very deep into the forest and is under shade canopy of the forest. It is not in one area, has migrated as has the 11 Bear Hill Woodbury invasion item no.51. above.</p>	<p>Jeff Ward has been to see this site as well.  This is less than 1.6 miles from 6 other infestations on this spreadsheet, which shows the seriousness of the large amount introduced into an area.</p>
<p>82. Promisek 694 Skyline Dr. Bridgewater  (was Benedictine Church) previous owners liked exotics. This was decided to not be wanted in their greenhouse. Due to improper disposal of rhizome in pile outside accidental colonization occurred outside .</p>	<p>Huge infestation The oldest one reported. Planted in the 1920-30's in the greenhouse, and accidentally rhizomes where discarded outside in a pile, and they took and started this huge invasion. It was decided the plant was not wanted, but by discarding the rhizomes in a pile they colonized.</p>	<p>This is a private property Location of a beautiful Conn.Historical Garden.  Reported by a worker there. After the IPC March 30,2011 meeting information on running bamboo passed out.</p>	<p>Property is in very close proximity to Shepaug and Housatonic river. Potential for possible future spread.  Photos have been received. Site visit planned this month to access how far rhizomes are, and if possible to try to eradicate.</p>

83. The Garden 155 Main St. Woodbury	Huge infestation way in rear back of property, invading all through flood plain wetland of Nonnewaug river. Bamboo on left and right sides, and near water. Large over 60 feet on either side and in distance tall in forest	Was told by an owner they do not sell it and that when area floods the bamboo is in fact half way up covered with water.  Also own Dietrich Gardens LLC Cheshire Wholesale/retail	Jeff Ward was out on field visit, July 14,2011 and when we spoke to the owner he did not know what it was. Had no clue as to different bamboos or that this was in fact Phyllostachys yellow groove.
84. 130 Mill St. Shelton	Approx. 20 W X 30 H, approx 7 yrs old ,fully invading towards woods, wetland property on Farmill River with falls. Small lot also.	Owner had no clue, as it was there when he moved in. Invading badly, rhizomes visible. Invading around large tree and towards decking.	This property backs up to the Farmill River with huge waterfall and strong current. Huge problem here with the bamboo.
85. Dogwood Rd, Orange	Reported by the Town, off route 34.		
86. Hillandale, Westport	Reported by Donna Ellis.	DOT right of way Near Sherwood Island Connector.	
87. 316 State St. North Haven	Reported by Walt Brockett.	Large infestation invading along roadside and possibly around a stream.	Wetland area.
88. North Guilford Address to follow	Reported by Walt Brockett.	Detail to follow New report.	
89. Greenwich: Homes being invaded along railroad track area.	Reported by: 8-2011 Denise Savageau Town of Greenwich Conservation Commission	Many calls coming in monthly from frustrated homeowners under invasion.	Multiple homes being invaded.
90. 15 Shelton St. Seymour	Large grove approx 30 high x 30 wide Failed inadequate Barrier.	Invading freely down the hill into the woods.	Invading woods in back of Stop &Shop Supermarket.

91. Stone Fence St. Naugatuck	Large infestation reported here.	Hanging on road, and invading Housing Development.	Plan to see this.
92. Lambert Rd.,Orange	Large infestation Approx 30H x 60W	Invading under canopy of trees in shady forest area	Abuts directly to large wetland area.
93. 421 Pine Tree Rd. Orange	Large infestation on corner of lot. Approx 30H X 30W	Failed barrier invading freely through drainage ditch and to next property.-fully invading over 10 ft all directions.	Bamboo seen 2 inches from road and invading all through drainage ditch and onto neighbors lawn.
94. 265 New Haven Ave, Milford	Condo units being invaded by large grove next door –approx 30H x 30W, planted just five feet from their buildings in the rear.	Upset seniors here as bamboo has damaged their fencing and is hitting the building, and gutters.	Planter next door says he is using 10 ml barrier, not adequate, & does not know what rhizome pruning is. Large amounts of bamboo seen in wooded area in back, possible rhizome dumping here as small bamboo patches in woods and up on next street in dumping area.
95. North on Rte .57 Main Rd. Weston Exit 42	Huge infestation in woods invading. Reported by an attorney . (on corner)	He says the people knew they did not want it, and tore it all out, and then dumped it in the woods in back.	Invading in woods due to dumping discarded rhizomes. Plan to see this location, and update.
96. 32 Whitewood Dr. Shelton	Freely invading down hill in back of yard. Approx 4 yrs, 10W x 18 H	Planted this a few years back and had no clue. Received rhizomes.	Appeared to be invading around ledge, and the hill of a wooded area .
97. 3 Park Circle Milford	Small newer groves along a strip of town land. Just 20 feet away from small home.	Wooded area with wet ditch , possibly came from bamboo on New Haven Ave, next street over.	Could have been dumped , land here adjoins item no. 94 above, where there is a lot of bamboo

			invading in wooded connecting area.
98. Lake Ave, Greenwich	Large infestation reported in the woods here on the right.		
99. Newtown Turnpike Weston	Massive amounts all the houses here. Reported by an attorney.	Off Exit 41 Merrit End ramp left, 3 miles down..	Plan to see this one. Massive and multiple houses invaded.
100. 280 North St. Milford	Planted in front near front steps of house Approx 20H x 10W	Person had no clue, what this was, knew it grew fast. Fully blocked garage door on one side.	Received rhizomes from a friend. Bamboo falling over and blocking garage.

PART II SPREADSHEET Jan. 2012 Items no. 101 and up.\*\*\*\*\*

PHYLLOSTACHYS AUREOSULCATA – All Invading – No Containment or Knowledge of.
---

101. Third Ave. Seymour	Massive invasion All along entire Property edge invading out onto public roadway. 90 feet or more and was told rhizomes are in middle of the property under lawn.	This is growing up into power lines and may be a hazard.  Invading down the hill to next property.	Canes hang onto road during storms.  Homeowner bought in a foreclosure.  approx. 9 years on age of planting.
102. 836 Edgewood Ave. Westville  Part of New Haven	Home was for sale 6-2011 and buyer backed out 3 days before closing. Deposits were lost.  Bamboo is on 4 adjoining properties	Reason : Hired unlicensed roofing contractors who cut the bamboo and then roto -tilled it in. ( for \$900. )	Was not eradicated as agreed by professional and at \$5,000. cost. Attorney caught this and protected the buyer.
.
