

MY COMMENTS

1. A good offense makes a good defense.
2. Be prepared.
3. Prevention is the key to curing many problems in this country.
4. If these bills had been in effect at the time the hurricane hit the coastlines here in CT this past year, MUCH MONEY WOULD HAVE BEEN SAVED.
5. No. 4 is an understatement; when you consider the problems which arose when people received more funds than they really qualified for, thus depriving others who needed it. Certainly it was a good thing that the Emergency Office authorized by the President, was shut down sooner than the general public would have liked - more fraud would have taken place. Who pays the cost for this fraud - for "remedies" set by the Governor? The taxpayers.
6. Simply put, it just makes sense. I am grateful to those who worked and prepared this bill.
