

I am an older disabled woman who is able to ride my gaited horses. We need to trailer our horses to ride on trails. My husband Steve and I also belong to the CT Horse Council which supports HB5262 a bill to protect named trails so horseback riders will never be excluded from using them. This bill would add a few more protected trails that we could ride on as well as all who love and use these trails, walking, biking, etc.. Steve and I request a vote in favor of passing HB5262.

We have a beautiful state and enjoying the trails we have gives us great pleasure. We hope our children and grandchildren will be able to see and enjoy these same trails as we do now.

Thank you
