

I am a CT resident, 151 Hamburg Road, Box 765, Lyme, CT., and I am 100% in support of Raised Bill 5446. Far too many cats and dogs released for adoption from town shelters, or returned to their owners are NOT sterilized resulting in feral cat colonies, and unwanted puppies.

Animal Control Officers are often lacking in full understanding of the CT laws and regulations regarding animals, and they do not have the professionalism that their important duties command. CT should be a leader in the humane treatment of animals and the ACO's should be in the forefront of this effort. Only thru training can this be accomplished.

Hercy Lord, Lyme, CT.
