

Members of the Environmental Committee: This is in regards to S.B. No. 83. As a landowner of 14 acres I am in support of archery hunting on private property on Sundays. As a hunter and landowner in Connecticut I only have one day a week (saturday) to hunt due to work monday thru friday. Anyone on my property while i'm hunting is trespassing! Bow hunting has been a long tradition in my family for generations. Given one day a week to enjoy a pastime limits a tradition that my family and I cherish. I would greatly appreciate it if you could push for this bill. thank you, Dan Lauer
