**Re: S.B. No. 83 AN ACT AUTHORIZING BOW AND ARROW HUNTING ON SUNDAY
UNDER CERTAIN CIRCUMSTANCES.**

Senator Meyer, Representative Roy and Distinguished Members of the
Environmental Committee:

I urge you to SUPPORT S.B. No. 83.

With the Governor's recent support of the abolishment of CT's antiquated Blue Laws I respectfully ask you to support the current Sunday archery hunting initiative before the committee.

Bowhunting is a safe and effective management tool. I enjoy bowhunting with my sons as much as possible. However due to work and school, along with Soccer and other activities that take place on Saturdays, we are simply not able to hunt as much as we'd like. The Sunday hunting bill is a great opportunity to show the sportsmen in this state that you support them, as well as taking an active role in reducing Connecticut's growing deer herd.

Respectfully,

Pat Lefemine
