

This bill is a fantastic idea. As a business owner I often work 6 days a week with my only guaranteed day off being Sunday. Being an avid bowhunter this change in the law would permit me to enjoy recreational time on Sundays without having to schedule additional time off from work. Allowing Sunday bowhunting on private lands still allows people the ability to enjoy State lands and forests on without the possibility of interacting with hunters.

Thank you for your time,

Peter DuBaldo
