Legislative Office Building
300 Capitol Ave Hartford, CT 06106

Re: S.B. No. 83 AN ACT AUTHORIZING BOW AND ARROW HUNTING ON SUNDAY UNDER CERTAIN CIRCUMSTANCES.

Senator Meyer, Representative Roy and Distinguished Members of the Environmental Committee:

I urge you to SUPPORT S.B. No. 83.

With the Governor's recent support of the abolishment of CT's antiquated Blue Laws I respectfully ask you to support the current Sunday archery hunting initiative before the committee.

Bow hunting is a safe and effective management tool. I have friends and coworkers who enjoy bow hunting as much as possible in their spare time. However due to work and school, along with soccer, baseball, football and other activities that take place on Saturdays, they are simply not able to hunt as much as they would like. The Sunday hunting bill is a great opportunity to show the sportsmen in this state that you support them, as well as taking an active role in reducing Connecticut's growing deer herd.

Respectfully,
Albert Lucarelli
