

Good morning I am sending this to you in favor of Sunday bow hunting on private land . My two sons and I have always enjoyed the sport of bow hunting more then firearms. In the past I have purchased three adult license across the board including bow, rifle private land, state shotgun and muzzle loader weather we have the time to go or not . At this time one in collage the other a Junior in high school Saturdays are a busy day with other sport activities at school such as football occupying early fall to Thanksgiving. Able to buy licenses on line makes it a lot easier to purchase as needed. The past few years time was limited we purchased as needed some time none at all. With private land only bow hunting will open more opportunities to enjoy the sport and more revenue for the state of CT. At this time we travel in nearby states to hunt Sundays.

Thank you for your time.
