I'm fine with Sunday liquor sales, but I am opposed to the following sections of HB 5021:

1. Bulk discounts to retailers from suppliers - unfair to smaller stores
2. 9 Permits - too many and not fair to existing stores
3. Minimum Mark up - again unfair to smaller stores
4. Elimination of one store per 2,500 people - this is completely unfair to existing stores and significantly alters their business

This bill is way too much and way too soon. More research needs to be done to understand the impact of Governor Malloy's plan.

Respectfully submitted,
