**Subject:** Liquor Law Modification Bill

Gentlemen,

I have been a package store owner for over 15 years, during which time my family and I have worked to build a viable business and be competitive. We hope that the Connecticut legislature will reconsider the bill that has recently be introduced. The impact of this bill on independently owned package store would be catastrophic. If the minimum price option is it would not allow the smaller stores to be competitive. We need to enact legislation that will help the small business package store owners to thrive as opposed to putting them out of business.

It appears that the legislature has also lost sight of the concerns for underage drinking and drunk driving. It would seem that it would be impossible to keep track of these things...

This bill must not pass for the benefit of all.

Sincerely,

Robert J. Mollica
