Testimony in Favor of Raised Bill No. 5088.

I support Bill number 5088, we need to update a law written before electronic communications existed. We currently communicate with our customers via email.

With regard to the daily newspaper, they used to have an 85% subscription rate, now it is more like a 17% readership. Most people get their information from the TV or they google for information.

Sincerely,

Bob Kiley
