Subject: Bill 5021

To whom it may concern, I am righting to express my opposition to bill 5021 as I feel it will do more harm than good. This bill and its supporters are not telling the public the true intent as they just push Sunday sales. This bill will hurt if not kill off the small business owners in Ct. This bill will not provide more income, rather the opposite. With the killing of the small guy, you will have fewer jobs, less tax revenue and reduce selection.

This bill needs to be re-written so that it is fair to all.

Government speaks of the need for small businesses, well how about showing us

Thank you for your time
