Yes to open Sunday and later hours both for bars and liquor stores. (If that keeps people from crossing the border to NY and MA, Ok, makes sense. We gain revenue)

NO to grocery store or big box sales! This reduces choice and the laws allowing them to use alcohol as their draw by reducing the price below cost...put the small guy out of business, both in production (limited selection (kills microbreweries and small wineries) and in retail sales small mom and pops who can't compete this way. Do you think Walmart is going to hire more people to work at their store to handle the liquor dept?

No to variety and gas station sales. This just promotes alcoholism by making it a more silent way to purchase. I guess we will increase revenues by causing people, especially kids to need medical treatment for more drunk driving and more accidents and rehab. GREAT!!!
