**Subject:** re: H.B. No. 5155

Dear Allison Blancato,

I am writing/emailing you regarding my concern on the proposed changes on the H.B. No. 5155 Bill to modify the ban on Pesticide Applications on School Grounds.

I am writing as a concerned parent with children with allergies and sensitivities. I **don't** think Non-Organic, Toxic, Pesticides should be on school grounds or anywhere children or the public will be. They should not be allowed to be applied. If strides were made to improve on this, I don't understand why they would go backwards and put children and our environment in harms way? With the rises in cancer and respiratory illness, this would be irresponsible to allow these Toxic Chemicals to be spread.

I urge you support human and environment health first and foremost over all.

Thank you,  
Annelise McCay
