**Subject:** Reject H.B. No. 5155

As a science teacher, mother, biochemist, I urge you to:

**Please reject the bill to allow the use of pesticides on school grounds.**

**H.B. No. 5155 (RAISED) AN ACT MODIFYING THE BAN ON  
PESTICIDE APPLICATIONS ON SCHOOL GROUNDS**

This bill undoes all the great work that many students, teachers and parents worked for to protect our children.

Pesticide use endangers the health of children who play on the lawns that are treated this way.
