

My name is Alyssa Temkin, I am 6 years old and this is my sister Lily and she is 4 years old. We both go to Solomon Schechter Day School in West Hartford. I have GSD and need to be tested and fed every 90 minutes.

I try to drink my food, but sometimes I can not, or do not want to, so I need to be fed thru my feeding tube in my belly.

I need a grown up to help me to be sure that I get tested and fed, but there is no reason why that grown up needs to be a nurse.

I hope you will vote in favor of this Bill number 369. This will also let other boys and girls go to school and just be regular kids like me.

Thank you.
