Subject: senate bill 369 (SB369)

Hello,

I am writing this letter to ask that the senate to pass this bill . It could be a life or death decision on the senate. I have had epilepsy all my life and my years going through public schools the public education system was not able to help me in any way. I always was sent to the hospital and this would not have been necessary if i had my medication and the staff was educated maybe I would have been able to go to collage and finish my degree.

so please pass this bill and prevent all of the children who have epilepsy not to be labeled or at risk of not having the schools with necessary items.

Thank you,
Raymond DiNitto
