My name is Anthony Alexander and I reside at

24 Cabot St. Its important that
insurance be given. People is in need
of care for kids. Dentist is high
and being out of work is not
helping also having a wife and kids
isnt making things better without
help. Please pass this not just for me
but for everyone who's doing bad too

The purpose of this letter is to ask if you can help with my efforts in supporting the Raised 56.425 An Act Establishing a basic health program. This bill is a step in the right direction, but we will continue to move our efforts into free healthcare for everyone. This bill will help a certain portion of people who may not have healthcare.

Thank you for your time and considering my request.

Sincerely,

Name: A. Alexander
