Public Health Committee Members

Legislative Office Building, room _____
Hartford, CT 16106

My name is Tonee Carlette and I reside at 18 West Pearl Street. I think it is important to have insurance because there are a lot of people that need help with everything from doctors visits to medication. Many people can't afford to go without these needs. I think that health care should be provided to all for the insurance of everyday health.

The purpose of this letter is to ask if you can help with my efforts in supporting the Raised \$8.425 An Act Establishing a basic health program. This bill is a step in the right direction, but we will continue to move our efforts into free healthcare for everyone. This bill will help a certain portion of people who may not have healthcare.

Thank you for your time and considering my request.

Sincerely,

Name:
