To Whom It May Concern,

I am writing to express my personal support for the need for Senior Safety Zones and I commend Kathy Doherty-Peck, Director of Senior and Social Services for the Town of Montville, in her quest to have Senior Safe Zones. Along with Kathy, I also strongly believe the safety of our elderly population should be a basic right for our residents and should be of the utmost importance. I also believe our biggest concern should be with the welfare and safety of our most vulnerable populations.

It has been our mission at the Rose City Senior Center to have our Senior Citizens kept safe from all kinds of dangers and solicitation of any kind. It only makes sense for our legislators to pass a bill to establish these safe zones in order to keep our most vulnerable population as safe as possible.

Thank you for your consideration in this matter.

Michael Wolak
