Funding for state-wide arms trafficking task force

Hello,

My name is Mark Adams I am a Veteran and a humble citizen of Hamden. I am writing today to indicate my approval of proposed legislation to fund the State-wide arms trafficking task force with one caveat. This task force as one if its lead roles should also be responsible for investigating attempted illegal purchases of fire-arms by those that are reported by gun stores as attempting to illegally purchase a fire-arm such as Adam Landza did recently. Ask gun stores to report attempted or presumed illegal purchases to the police immediately as soon as it is identified, in the opinion of the store owner or his staff, that the person is ineligible to own a fire-arm. Give the right to the owner of the store to passively detain said suspicious person until police can arrive to assess the situation. I believe that this unit can help prevent a future event such as Sandy Hook. Please support this appropriation and create this new team with all due haste.

Thank you,
Mark Adams
