Subject: cuts to environmental safety nets

Hello members of the Appropriations Committee,

I am a resident of Coventry, CT. Please know that I strongly oppose 1) consolidating the Council on Environmental Quality into the Office of Government Accountability and 2) proposed cuts to the DEEP budget.

It is time for Connecticut to be on the forefront of ecological preservation. Now is the time to demonstrate tangible care for our open spaces, waterways and ecological systems.

Thank you,

Cathy Cementina
Coventry, CT
