Retiree Insurance

I don't understand how this governor can bypass a law already in place. Then factor in building a bus way that almost NO ONE will use. I will be a retiring teacher after the school year 2013-14. How will I afford insurance? And after I paid in over 30 years for others insurance. Only to have my own shut down. This governor surely does not have the best interest of the people, nor care about legalities.

I am angry and urge you to do anything possible to right this wrong.
