Sen. Kane, Rob  
Testimony Bill #272

I'm writing in support of Bill 272. No more government mandates of any kind that lead to more tax increases in property taxes. The state has enough resources to get the money they need without forcing more expenses on town governments. The state needs to reduce runaway state pensions, salaries and benefits. Let no one retire before the age of 65. No more early retirees.

Pass this bill now!
