Support SB 307 Finally Common Sense

Dear Committee Member;

Please accept this written testimony in support of SB307.

It is about time my rights as a law-abiding, tax paying citizen are not threatened in the name of do anything "safety".

As I have been stating for months we do not have a gun problem. We need to arrest criminals that violate CURRENT law and keep them in prison for their entire sentence.

Why not try that first without infringing on our rights?

Thank you
