Subject: 3 durational forestry positions

Hello,

As an active member of the Friends of Goodwin Forest, I support funding for the three durational forestry positions that DEEP is cutting (allowing the funding to lapse.) The forests of CT are potential revenue sources for the state, yet without foresters, decisions cannot be made to harvest the timber in state forests. Also, these positions typically bring in more revenue than they cost, so not refunding them serves no point and may decrease state revenues. Please reverse this particular DEEP decision.

Sincerely,
Patricia Poehlitz
