RETIREE HEALTH INSURANCE

Dear Gov. Malloy

A quick e mail to assert my feelings of the unjust and unfathomable decision to end state funding of insurance for active or retired teachers. For 20 years I have labored in the classrooms of Bridgeport Schools and now that my retirement is near, you are allowing that the State ignore their obligation to me and my colleagues. This is not the man we voted for. Up until now I have been so proud of the work they are doing up at the state capitol, however, this is shockingly inappropriate on the part of the State. Have you no shame. What a "slap" in the face to Connecticut Teachers! Govenor Malloy, we implore you to rethink your actions and reverse your course. Norma Jean Maltese
