AppropriationTestimony
proposed bill SB 307

Dear Committee Members,

I am writing today in support of S.B 307, an act providing funding for the state-wide firearms trafficking task force.

I believe this task force has been very successful in the past, particularly in areas of high crime rates. However funding for this task force has been reduced in the past.

I support any possible funding increase for this task force and am in favor of this bill. I understand it's a difficult budget year but feel this is an important initiative to fund, even at a lower dollar amount.

Thank you,

Mike Phelps
