

To whom it may concern<

As the Co-chair of the Derby Readiness program I was very excited to read about the creation of the Office of Early Childhood. Having an agency that will provide a comprehensive, collaborative system for delivering improved programs and services to children ages zero to five and their parents would be an asset in providing integrated support to all the Early Childhood Programs in the State.

Please support the formation of the Office of Early Childhood.

Regards,

Beth Colette

Co-Chair Derby Readiness
